

NAVY SURGEON GENERAL VISITS WILLIAMSBURG, YORKTOWN MEDICAL COMMANDS

The visits included all hands calls with the staffs, facility tours, lunch with junior Sailors, and meetings with command leadership.

Faison spoke of the commands' roles in maintaining the health and well-being of Sailors and Marines not only today, but into the future.

Navy Medicine is a global health care network of more than 63,000 Navy medical personnel around the world who provide high quality health care to more than one million eligible beneficiaries. Navy Medicine personnel deploy with Sailors and Marines worldwide, providing critical mission support aboard ships, in the air, under the sea and on the battlefield.
